our vision

.. is to become **the** globally active,
personal network for protected area
experts.

our objectives

Goal 1: Members benefit in their
professional life by being associ-
ated with the Alumni Club Network

Goal 2: Members enjoy being part
of the Alumni Club Network

Goal 3: Biodiversity benefits from
the Alumni Club Network

we are

54 experts trained in the MSc pro-
gramme "Management of Protected
Areas" (<http://mpa.uni-klu.ac.at>)
who join their efforts for an efficient
outcome.

expertise

The alumni club of the MSc programme „Management of Protected Areas“ serves as a platform for the exchange between the current and former students, the management, the advisory board and the lecturers. It's also open for acknowledged external protected area experts and organisations as well as supporters of the MSc programme or its alumni club. We exchange in personal meetings and via our project web-site.

a network with broad knowledge and skills in the fields of

- > biodiversity conservation,
- > feasibility checks,
- > planning procedures,
- > integrative management,
- > organisational development,
- > evaluation of management effectiveness,
- > communication & participation,
- > education & visitor management,
- > regional development and
- > sustainable financing.

As of autumn 2009, 54 former and current students from 22 different countries, connected to 50 international lecturers and advisory board members.

worldwide connected

contact us in case

- .. you are an acknowledged protected area expert or organisation and want to become a member of our alumni club,
- .. you need expertise for a specific project,
- .. you have a job offer connected to protected area management,
- .. you want to participate in the next MSc Programme or
- .. you want to support our Alumni Club or the MSc programme as a donor or sponsor.
